## AWARD MESSAGE

In a year where AI generated a 3D view of the protein universe, Dall-E 2 took AI image generation to the next level and even Kendrick Lamar used deepfakes in his music video. All of you were our AI heroes, creating true value for our clients and helping them keep up with this vast pace of change. And it's certainly been a year of growth for us. We defined our 8 capabilities and brought you the iAi to help you all push the limits of your potential. Across the network, we welcomed Bridge i2i, Tenbu and Ergo to bolster our data and AI capabilities, had nearly 10,000 new faces join our network and came out on top as a leader in analyst rankings. None of this would be possible without you, our builders, creators, designers and masters of data and AI, you truly put the art in Artificial Intelligence. So here is a small token to say thank you for all you have done. Congratulations on keeping some of the biggest companies across the globe at the top of their data and AI game.
